MANN MAVANI

Software Development Engineer (Backend & AI Systems)

Junagadh, Gujarat, India • (+91) 8511285988 • mannmavani478@gmail.com • LinkedIn • github.com/MannHMavani

PROFESSIONAL SUMMARY

Results-driven **Software Development Engineer (Jr. SDE)** with hands-on expertise in engineering autonomous AI agents, automated code-review pipelines, and scalable backend microservices. Accelerated from **Intern to Jr. SDE in 6 months** at Zignuts Technolab by independently architecting internal AI developer tooling and delivering production systems. Proficient in **Python, FastAPI, Node.js, React/Next.js, PostgreSQL, MongoDB**, and modern **LLM Orchestration / Agentic Workflows**. Adept at designing resilient REST APIs, asynchronous task workers, and automated CI/CD pipelines in agile environments.

WORK EXPERIENCE

Zignuts Technolab *Gandhinagar, Gujarat, India*

Junior Software Development Engineer (Jr. SDE) *Jul 2026 – Present*

Software Engineer Intern *Jan 2026 – Jun 2026*

** Promoted to Jr. SDE in 6 months in recognition of exceptional independent project execution and backend systems delivery.*

• Hyperion AI Code Reviewer (Automated PR Review Engine) — Solo Project:

- Architected and deployed an automated GitHub PR review service that parses pull request diffs, checks static AST violations, and generates contextual code suggestions using Large Language Models (LLMs).
- Designed asynchronous webhook handlers and background worker queues using **FastAPI**, reducing senior developer manual review turnaround time by over **40%**.
- Built custom heuristic filters and prompt-engineering pipelines to minimize hallucinations and eliminate false-positive alerts.

• Autonomous Content Research Agent — Solo Project:

- Independently engineered an autonomous agentic workflow combining semantic web search, multi-source document ingestion, and automated structured report synthesis.
- Implemented rate-limited API crawlers, citation-tracking algorithms, and vector-based context retrieval to deliver concise briefings.
- Reduced technical research and competitive intelligence collection cycles from **4+ hours to under 5 minutes** per topic.

• Enterprise AI & Full-Stack Systems — Team Collaboration:

- Collaborated in cross-functional agile teams engineering high-throughput conversational AI platforms and multi-agent workflow systems.
- Engineered resilient RESTful APIs with **FastAPI** and **Node.js**, implementing JWT auth, strict schema validation, and structured error handling.
- Optimized database querying across **PostgreSQL** and **MongoDB**, reducing p95 query latency by **25%** via composite indexing.
- Participated in sprint planning, code reviews, and Git flow standards, maintaining 95%+ test coverage across core microservices.

TECHNICAL SKILLS

Languages:	Python, TypeScript, JavaScript, SQL (PostgreSQL, MS SQL), Java, Shell Scripting (Bash)
Backend & APIs:	FastAPI, Node.js, Express.js, Flask, RESTful APIs, Webhooks, Microservices Architecture
Frontend & Web:	React.js, Next.js (App Router), HTML5, CSS3, Tailwind CSS
AI & Agentic Systems:	LLM Orchestration, LangChain, Autonomous Agents, Prompt Engineering, Gemini & OpenAI APIs, Vertex AI
Databases & Caching:	PostgreSQL, MongoDB, Redis, Microsoft SQL Server
DevOps & Tooling:	Git, GitHub Actions (CI/CD), Docker, Google Cloud Platform (GCP), Linux/Unix, Postman

TECHNICAL PROJECTS

ML Model Comparator & Predictive Analytics Engine *Python, FastAPI, Scikit-Learn, Pandas*

GitHub: github.com/MannHMavani/ML_Project_CSV_Comparative_Study_And_Predictor

- Designed a full-stack ML platform enabling users to upload datasets, automate exploratory data analysis (EDA), and evaluate multiple classification/regression models simultaneously.
- Implemented automated cross-validation, hyperparameter tuning, and metric visualization (ROC-AUC, F1-Score, RMSE).
- Built a REST API backend with FastAPI exporting production-ready model weights and delivering low-latency tabular predictions.

EDUCATION

Darshan University *Rajkot, Gujarat, India*

Bachelor of Technology (B.Tech) in Computer Science & Engineering *2022 – 2026*

- **Cumulative Performance Index (CPI): 8.11 / 10.0**
- **Relevant Coursework:** Data Structures & Algorithms, DBMS, OOP, Operating Systems, Software Engineering, Networks

CERTIFICATIONS & ACHIEVEMENTS

- **Google Cloud Certified:** Build Real World AI Applications with Gemini & Imagen • Prompt Design in Vertex AI • BigQuery ML (2025)
- **HackerRank Badges: 5-Star Gold Badge** in SQL and Python; **4-Star Badge** in Java
- **Google Cloud Skills Boost:** Diamond League Achiever across generative AI and cloud data engineering tracks
- **Technical Competitions:** Runners-up in *Ex-Quiz-It*, Frolic National Technical Symposium (2024)
