EDUCATION

Darshan University, Rajkot *2022 - Present*
B.Tech in Computer Science *CPI: 8.11*

Shri NP Bhalodiya HS, Junagadh *2022*
Higher Secondary Overall Percentage: 63.85

Carmel Convent School, Junagadh *2020*
Secondary Overall Percentage: 84.17

CARRER OBJECTIVE

A results-driven Computer Science student skilled in software development, data structures, and algorithms. Proficient in Java, Python, and SQL, with hands-on experience in full-stack development using modern frameworks.Passionate about problem-solving and eager to build scalable and efficient applications in a dynamic environment.

TECHNICAL SKILLS

Language	SQL, Java, Python, Shell Script, HTML, CSS, JavaScript, Dart
Software	MS Office, Jupyter Notebook, Android Studio, Arduino IDE
Frameworks	ReactJS, NodeJS, Flutter, FastAPI, Flask
Databases	MS SQL, MongoDB
Other Tech-Skills	Machine Learning, Internet of Things

SOFT SKILLS

- Time Management
- Problem-solving
- Adaptability
- Teamwork and collaboration

PROJECTS

ML Model Comparator & CSV Predictor

- Designed a powerful FastAPI-based web application that allows users to upload CSV files, select target variables, and compare multiple machine learning models.
- Features include automated model selection based on accuracy, optional hyperparameter tuning, performance visualization, and dynamic UI interaction.
- Once the best model is selected, users can generate predictions using the best trained model. The predicted results are returned in tabular format for easy interpretation.
- **Technologies Used:-** Python, FastAPI, Scikit-Learn,Pandas, HTML/CSS
- **Code:-** https://github.com/MannHMavani/ML_Project_CSV_Comparative_Study_And_Predictor

Tic-Tac-Toe Web Application

- Developed a full-stack 2-player Tic-Tac-Toe game using the MERN stack.
- The React frontend allows two players to enter their names and play the game with real-time updates, win/draw detection, and a clean, responsive UI.
- The backend uses Node.js and Express to handle API routes for recording and retrieving match results.
- Win/loss/draw data is stored in a MongoDB database for historical tracking.
- **Technologies Used:-** React, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS
- **Code:-** https://github.com/MannHMavani/tic-tac-toe

Weather Prediction Web-Page

- Created an web-page everaging Machine Learning algorithm (Random Forest) to classify Weather in Rainy,Sunny,Cloudy & Snowy.
- **Outcome** : Enhanced understanding of Weather classification and deployment of machine learning models Working of Project.
- **Technologies Used:-** Python, FastAPI, Scikit-Learn,Pandas, HTML/CSS
- **Code :-** https://github.com/MannHMavani/Weather_Preds
- **Live :-** https://weatherpredict.onrender.com/

CERTIFICATES

- Runners-up in **Ex-Quiz-It** , Frolic-2024 – Sep 2024
- Gold Medalist in **AINACS GK-Olympiad** , AINACS – Aug 2016
- **SQL (Basic)**, HackerRank- Jun 2024
- **SQL (Intermediate)**, HackerRank- Jun 2024
- **Python For Machine Learning & Data Science** , Udemy – May 2024
- **Create ML Models with Big Query ML**,Google Cloud - May 2025
- **Build Real World AI Applications With Gemini and Imagen** , Google Cloud – Apr 2025
- **Prompt Design in Vertex AI**, Google Cloud – Apr 2025
- **Perform Predictive Data Analysis in BigQuery**, Google Cloud – Apr 2025

ACHIVEMENTS

- **5 Star** in **SQL** and **Python** on Hacker Rank
- **4 Star** in **Java** on Hacker Rank
- **Diamanod League** on Google Cloud Skills Boost

LANGUAGES

- English
- Hindi
- Gujarati
